Summary

Computer science senior specializing in machine learning systems. Experienced in building data pipelines and productionizing models; author of 2 conference papers.

Education

M.S. in Computer Science | Example University 2024.09 – 2027.06 (expected) Beijing
- GPA: 3.8/4.0; focus: machine learning and computer vision.

B.S. in Computer Science | Example University 2020.09 – 2024.06 Beijing
- Ranked top 5%; received the National Scholarship (2022).

Experience

Machine Learning Intern | Tech Company, Beijing 2025.06 – 2025.09 Beijing
- Built a data cleaning pipeline processing 10M+ records daily.
- Improved model inference speed by 30% through quantization.

Research Assistant | AI Lab, Example University 2023.10 – 2024.06 Beijing
- Designed experiments for the paper accepted at ExampleConf 2024.

Projects

LaTeXcellence | AI-powered LaTeX assistant 2026 Personal project
- Developed a FastAPI + React tool for AI-assisted proofreading of LaTeX documents.
- Repo: github.com/yourname/project.

Skills

Languages: Python, C++, TypeScript, SQL
Frameworks: PyTorch, FastAPI, React, Docker
Languages (spoken): English (fluent, TOEFL 105), Chinese (native)

Honors & Awards

- National Scholarship, Ministry of Education, 2022.
- Gold Medal, Regional Programming Contest (ICPC), 2023.
